Re: LMO, Cedar Springs Mine, M/023/059, Juab County, Utah

Enclosed is a copy of the vegetative analysis for this mine site. When I met at the Division's office you indicated that when this analysis was completed I should send you a copy. I also understood that possibly after your review of this analysis a soil sample may be necessary. As you determine the need for a soil sample, please advise as to how you desire that sample to be collected.

At present, I am still waiting for the topographic map to be enlarged and returned from the engineer's office. If you have questions please give me a call.

Sincerely,

Nephi Sandstone
